

# PointClickCare® MDS-in-a-Day

MDS 3.0 technology has to be fast, accurate and reliable. As of October 1st 2010, the success of your entire business depends on it. Still, many organizations are patiently waiting to get a glimpse of new MDS tools.

## What is MDS-in-a-Day?

MDS-in-a-Day is a unique offering from PointClickCare that removes the cost and risk of an MDS 3.0 transition, delivered to your facility within 24 hours of your order\*. PointClickCare has combined critical MDS 3.0 software components, professional implementation services, and online training into a cost-effective package that has been designed to help providers meet the immediate fundamental requirements of MDS 3.0.

*Quickly get your facility  
"MDS 3.0 enabled"*

*When you're ready, extend your  
system with enhanced billing and  
clinical functionality.*

  - Coaching

**Billing Extension**  
(Billing/AR implementation)

**Clinical Extension**  
(PointClickCare EHR™)

**Advanced EHR Extension**  
(PointClickCare EHR Advantage™)

## Life After 3.0...

PointClickCare recognizes that your business can't be sustained on MDS 3.0 technology alone. That's why we've structured MDS-in-a-Day to enable customers to expand their PointClickCare system when they're ready – at their pace, according to their unique needs.

**Billing Extension:** Facilities may choose to expand their use of PointClickCare by implementing the Billing and Accounts Receivable module, for a small one-time investment. This expansion can help stem revenue leakage and reduce information errors between Clinical and Billing functions.

**Clinical Extension:** Those facilities looking to gain operational efficiencies can automate additional clinical processes with the PointClickCare EHR™ package. PointClickCare EHR™ provides functionality for User-Defined Assessments, Progress Notes, Physician Order's, eMAR (non-integrated), and Weights and Vitals.

**Advanced EHR Extension:** PointClickCare EHR Advantage™ includes all available Clinical functions including high value pharmacy integrated eMAR, Point of Care, and Marketing/Intake Referral Management components. PointClickCare EHR Advantage™ enables facilities to optimize business processes for improvements in facility revenue, safety and quality of care.
